

Secure-UNO - eChart Assist for Doctors

NO SOFTWARE TO PURCHASE, NO START-UP COSTS. ANYTIME, ANYWHERE WEB-ACCESS!

- Can your doctor Review, Edit, eSign and Dictate a patient encounter in one easy-to-use application using any device (SmartPhones - iPhone or Android, Tablets - iPad or Android, PC or Mac) and any browser?
- How about using the same application to eSign and annotate a fax or any document you want them to review?
- Now, how about giving them access to their Patient Charts in the same application?

Secure-UNO is a charting tool designed exclusively for doctors and is fully integrated with Secure-Dox, SecureXFlow and Secure-Fax. It allows doctors to view patient schedules on a device of choice - be it a Smartphone, a tablet, PC or a Mac. No software to purchase or download!

Secure-UNO is an innovative and unique tool to help doctors complete charts easily. It is a HIPAA compliant cloud-based application that delivers better documentation, savings and higher productivity for the support staff as well as the doctors.

WE BETTER THE BUSINESS OF MEDICINE

Key Features

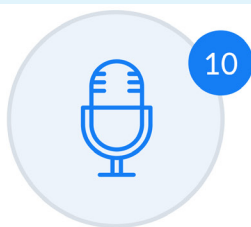

- **One Click Dictation. Use it on a Smartphone (iPhone or Android), PC or Mac.** Review, Edit, Comment and eSign Patient Reports, Charts and Forms.
- **One window access.** Use it for one or multiple facilities where you have patient interactions - your clinic, Surgery Center or the hospital! Makes it easy to complete charts and you do not have to learn different systems.
- **Superior Workflow.** Annotate and eSign faxes and other documents. Track and update status pending patient encounters.
- **Access to Patient Chart.** Easy access to relevant schedules and forms for multiple facilities in one simple window for better patient care.
- **Integrated with other MedOfficePro solutions.** Works seamlessly with SecureXFlow, Secure-Dox and Secure-Fax.

Benefits

- **Ease of Use.** Intuitive interface and no special training or software required. All updates are done automatically.
- **Savings.** Eliminate paper storage costs. Increased staff productivity. Prompt chart completion delivers better collections and profits for your center.
- **Satisfied Staff and Happy Doctors.** Ease of use, no software costs and minimal support needed for doctors. Improved staff productivity and workflow!
