

Secure-UNO

eChart Assist for Doctors

Secure-UNO improves clinicians' charting productivity by over 30%

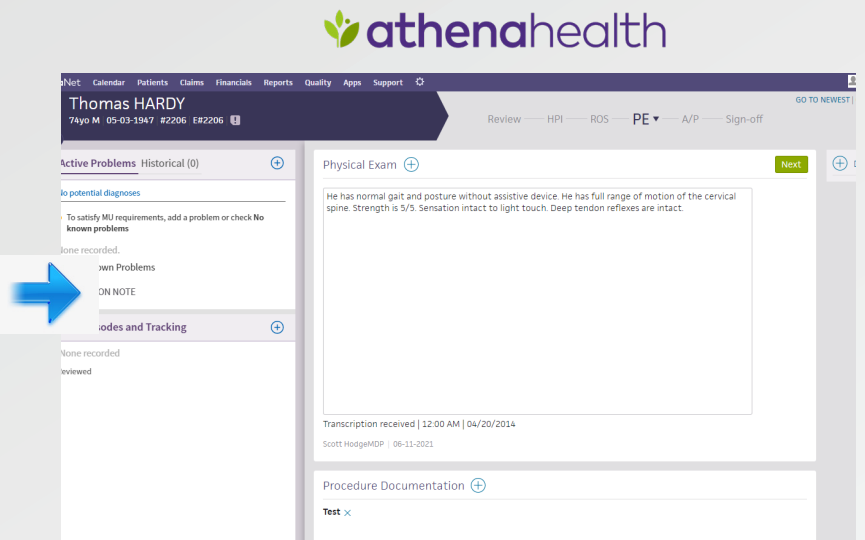

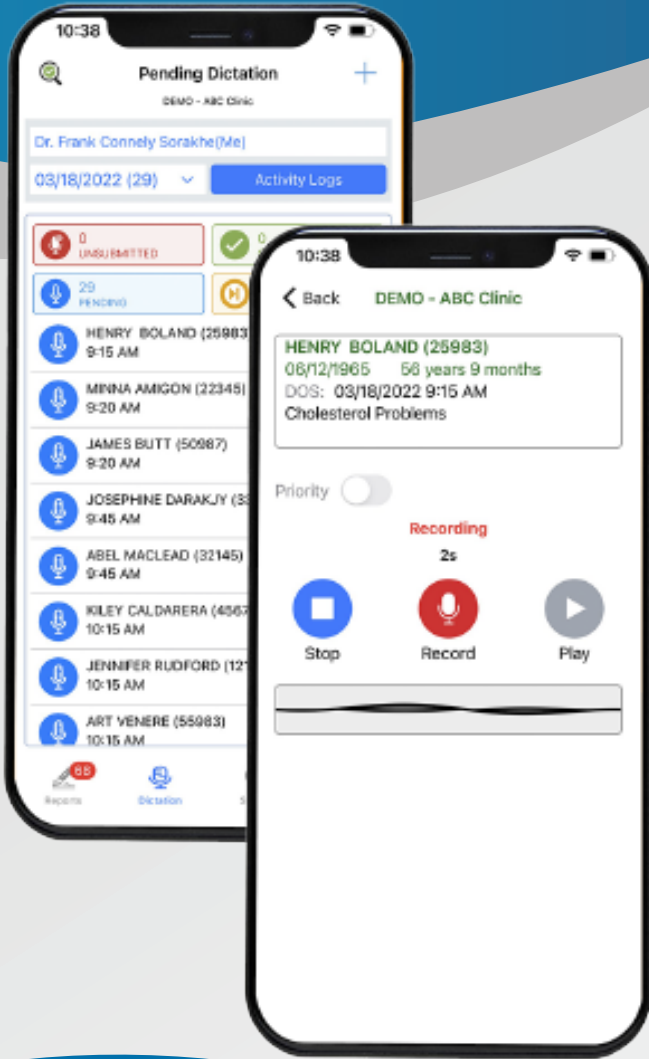

- No need to dictate patient medical information
- Dictate only sections that need to populate in athenaClinicals or dictate a letter for the referring physician at the same time
- Track pending and completed dictations easily
- Dictate anywhere - including your car (CarPlay and Bluetooth compatible)
- Trusted by more than 25 busy athenaClinicals practices nationwide

Experience . Reliability . Trust

Marketplace Partner for over a decade

MedOfficePro's Secure-UNO App is an intuitive and easy-to-use charting tool for doctors. Reports interface directly with athenaClinicals - saving valuable physician time. It improves patient documentation workflow by reducing turnaround time for reports (including same day service), and delivers accurate transcripts for practices nationwide.

Contact us today to find out why so many physician practices are choosing MedOfficePro for their transcription needs!
