Dictate using Mobile iOS App or browser based application

Search archived reports and charts

e-Sign and annotate shared Forms and faxes

Secure-UNO is an intuitive charting solution designed exclusively for doctors to review schedules, dictate, edit/eSign reports and faxes for patient interactions at multiple facilities. Secure-UNO is offered as an iOS App and a web application and works on any device or a browser. It is fully integrated with our other applications that include Secure-Dox (Chart Management and Patient Engagement), SecureXFlow (Advanced Transcription with Workflow) and Secure-Fax (Cloud-based Faxing with Advanced Workflow).

Secure-UNO is a unique tool to help doctors complete charts easily. It is a HIPAA-compliant charting solution that saves physician time and delivers better overall documentation. Try it for 30 days and see how it improves charting for your physicians!

Key Features

- **One Click Dictation. Use it on any Smartphone (iPhone or Android), PC or Mac.** Review, Edit, Comment and eSign Patient Reports, Charts and Forms.
- **Intuitive Layout and Interface.** Pending Dictation screen allows Providers to access entire schedule for the day; Easy access for Submitted, Completed or Skipped dictations and more!
- **One Window Access.** Use it for one or multiple facilities where you have patient interactions - your clinic, Surgery Center or the hospital! An easy drop-down menu allows a Nurse Practitioner (NP) to dictate for a Provider when needed or vice versa. Makes it easy to complete charts and you do not have to learn different systems.
- **Superior Workflow.** Annotate and eSign faxes and other documents. Track and update status pending patient encounters.
- **Access to Patient Chart.** Easy access to relevant schedules and forms for multiple facilities in one simple window for better patient care.
- **Transcribed Reports.** Ability to e-Sign, Print, Delete, Redictate or do an Addendum quickly.
- **Integrated with other MedOfficePro solutions.** Works seamlessly with SecureXFlow (Advanced Transcription with Workflow), Secure-Dox (Chart Management and Patient Engagement) and Secure-Fax.

Benefits

- **Ease of Use.** Intuitive interface and no special training or software required. All updates are done automatically.
- **Savings.** Eliminates paper storage costs. Increases staff productivity. Prompt chart completion delivers better collections and profits for your center.
- **Satisfied Staff and Happy Doctors.** Ease of use, no software costs and minimal training or support needed for doctors. Improved staff productivity and workflow!
